

EVALUATION FORM - FOLLOW UP

DISCAMER:

The evaluation form is to help us measure the various projects' impacts on every scale so we can learn from the experiences and create durable positive change. The more details you give, the better! And please also include photos with names and captions, as well as video's. We may use these for our website.

What are your plans for the next stage of this project? Have you started searching for solutions to continue the project's positive change? If so, what are they?	Click or tap here to enter text.

*sustainable development rests on three pillars: the social pillar, the environment one and the economic one. The project has to have a positive social impact (on various communities, especially the underserved, school friendly etc.), a good environmental policy (the environment shouldn't be permanently harmed by the project) and has to be economically sustainable in the long term (variety of investors, project self-sufficient).
