

# Non-technical jobs at ASML

## Huge opportunities for non-technical professionals

From Finance to Legal, HR to Project Management and Communications, you need to be as sharp and creative in finding solutions as our technical people. Our organization relies on your knowledge, experience and capabilities to advise on a professional level. Only by being innovative in both technical and business related activities, can we ensure our company runs as smoothly as our systems.

“ Being listed on Euronext Amsterdam and on NASDAQ makes it exciting. I must not only ensure that the figures are correct, but also ensure I am a business partner who really thinks along with the organization. Even if you are still relatively young like me you get a lot of responsibility right from the start. ”

**Nancy Mac Gillavry**  
Senior Financial Reporting Expert

Have you got what it takes to be an internal business partner to a global goal-oriented organization that moves fast and is renowned for its world-class technology? Come and work with us!
